NUTELLA S'MORES DESSERT PIZZA

# TONY VISCA AND FERN COLAVECCHIA HAVE REVOLUTIONIZED THEIR ITALIAN ROOTS OVER THE PAST TWO DECADES.

The two friends began their business partnership when purchasing franchises in Canada. From here, the pair built multiple Italian inspired restaurant concepts and pizza-wagons that revolve around the mouth-watering flavour that a wood-fired oven infuses into a variety of ingredients.

After explosive growth in the industry, Tony and Fern naturally want to continue to revolutionize, and franchise one of their most popular restaurants, DoughBox.

You can say that beautifully charred wood fired pizzas, rich hand-flipped pastas, and delicate fresh salads are in their blood and they are experts in their craft.

“5 stars does not give it justice. This is honestly the best pizza I have ever had in my life. This might seem like an exaggeration but if you get the unlimited topping pizza and add the right toppings, then it becomes possible to create your favorite masterpiece (for 13 dollars!)
